Referencing the informal docket number will suffice as documentation of the private waterbody determination.

Hi everyone,

Michelle and James, please correct me if I'm wrong!

Our database is simply showing that the pond at Olympia resort (Waukesha county, City of Oconomowoc) was determined to be a private waterbody on 10/26/2006. It gives some location information, but that's really all of it. That much I know for sure. If what you would like to reference this informal for would be sufficiently addressed by what I just wrote, I would say that referencing this docket number would do just fine.

If it would require the paper document that I was searching for, maybe Waukesha county would have it in their records. It's showing up on their GIS, so perhaps it's worth following up with them? Again, I'm not sure that they would have it.

Please let me know if I can do anything else! Have a great day, guys!

Erin

Erin:

Thanks for looking through your files.

All: given that James was able to find documentation in the DNR files that the Olympia pond was determined to be a private waterbody, can we simply reference the docket number on any permit submittals for the project in reference to navigability? I am guessing that if James was able to find it, any other DNR permit reviewer could also locate that determination?

Paul

Paul,

I dug through our paper files for Oconomowoc that we keep in the Waukesha office. I was not able to locate any documents associated with that docket number. Sorry I couldn't be of more help!

Have a great day,

I don't work in the Southeast Region, but there may be hard copy documentation in the Waukesha office. I've copied two staff that work in Waukesha.

**Josh/Michelle** – please check for records associated with INF-SE-2006-68-67125.

Thanks,  
James

James:

Thanks for the message. Do you have a copy of a letter or some other official documentation you can share with me, that indicates the pond is private?

Hi Paul,

DNR records indicate the jurisdictional determination was performed for a pond at Olympia Resort. The pond was determined to be a private waterbody.

Regards,  
James

James:

I am doing some due diligence on a property in Oconomowoc Wisconsin, and the surface water viewer indicates there is a non-binding jurisdictional determination performed in 2006, but it was not available off the Viewer.

Michelle Scott suggested I ask you if you could find the determination. Docket number INF-SE-2006-68-67125. I've attached a survey of the property.

Paul
